Objective

Motivated Computer Science student with a strong interest in software development and data science. Experienced in building programming projects and web applications using C++, Python, and JavaScript. Seeking opportunities to apply programming knowledge, gain practical experience, and continue developing strong problem-solving skills.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering
ITM Skills University, Mumbai
2025 – 2029

Technical Skills

Programming Languages
C++, Python, JavaScript

Web Development
HTML, CSS, JavaScript

Concepts
Object-Oriented Programming (OOP)
Problem Solving

Tools & Technologies
Git & GitHub
VS Code
MS Office, Google Workspace

Projects

Whack-A-Mole Interactive Browser Game (JavaScript)

- Developed an interactive browser game using HTML, CSS, and JavaScript.
- Implemented DOM manipulation and event handling for gameplay functionality.

Tic-Tac-Toe Web Game (JavaScript)

- Built a browser-based two-player game with dynamic user interaction.
- Implemented win-condition detection and game reset functionality.

Expense Tracker Application (Python)

- Created a Python application to record and manage daily expenses.
- Implemented logic for adding, tracking, and displaying expense entries.

Number Guessing Game with Countdown Timer (Python)

- Developed an interactive number guessing game with countdown functionality.
- Implemented user input handling and conditional logic.

Dice Rolling Simulator (Python)

- Built a dice simulation program that generates random outcomes.
- Used random number generation to simulate real dice rolls.

Snowflake Pattern Generator (Python)

- Created a snowflake pattern using Python logic and loops.
- Practiced pattern generation and control flow implementation.

Mathematical Heart Graph Visualization (Python)

- Built a program to generate a heart-shaped mathematical graph.
- Demonstrated graphical visualization using programming.

Parking Management System (C++)

- Developed a console-based system to manage vehicle entries and parking fees.
- Applied object-oriented programming concepts for structured implementation.

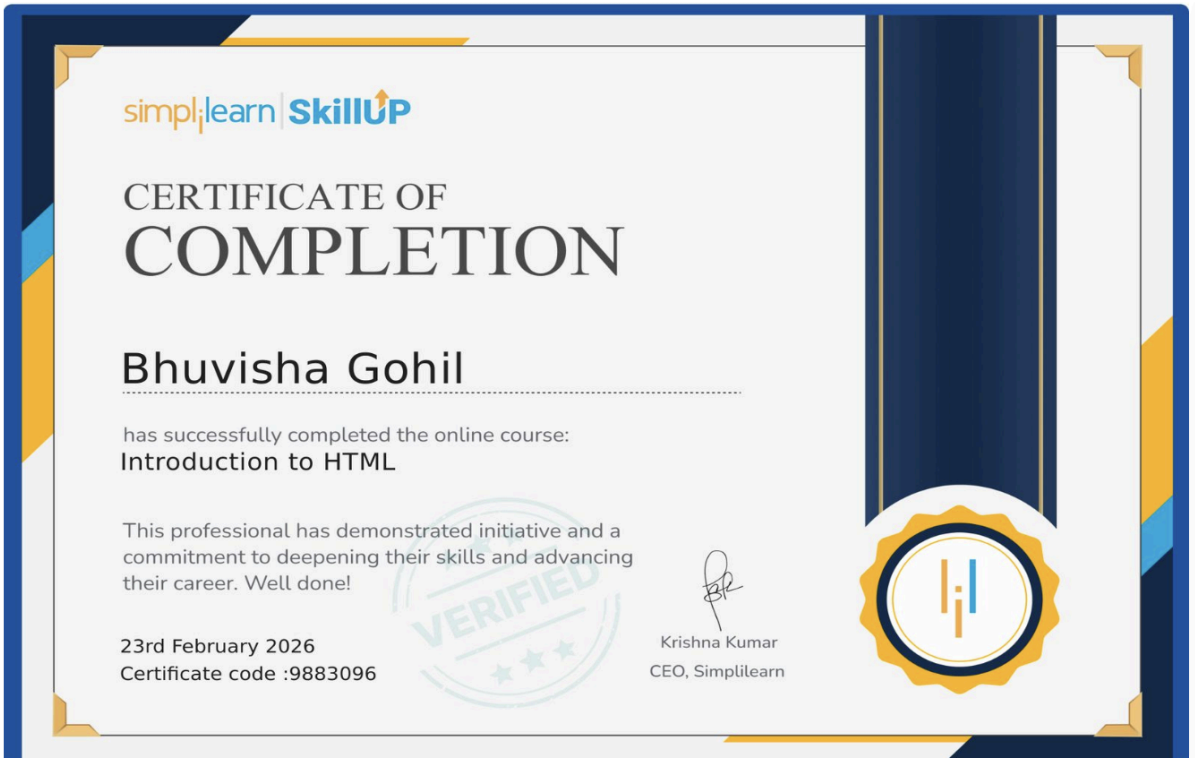
Student Percentage Calculator (Python)

- Created a program to calculate student percentages from subject marks.
- Implemented input validation and conditional logic.

Habit Tracker Application (Google AI Studio)

- Developed a habit tracking application to monitor daily routines.
- Designed a system to record habits and track progress.

Achievements & Activities



simplilearn SkillUP

CERTIFICATE OF
COMPLETION

Bhuvisha Gohil

has successfully completed the online course:
Introduction to HTML

This professional has demonstrated initiative and a commitment to deepening their skills and advancing their career. Well done!

23rd February 2026
Certificate code :9883096

Krishna Kumar
CEO, Simplilearn

- Participated in hackathons and collaborative coding challenges.
- Actively building programming and web development projects.
- Exploring areas such as data science and modern software technologies.
